

# Endodontics

BDS, MFDSED, PGCert Endo, PGDipEndo, MSc Endodontology

**Clinician: Dr Reem Al-Yamoor**

We welcome your referrals for patients needing endodontic treatment.

We are able to undertake conventional root treatments, re-root treatments, as well as removal of fractured instruments. We are happy to root treat and then return to you for definitive restorative care.

**Dr. Reem Al-Yamoor** has special interest and extensive experience in undertaking complex root canal treatments. She accepts referrals from other dentists to treat root canals that may be too complex for routine dental care.

Her specialty interest in root canal treatment successfully led her to complete a master's degree of science of endodontology with distinction from the University of Chester. Reem believes that high quality dentistry is essential to provide the best service for her patients.

She has a passion for continuing to develop herself and her clinical work. She has recently completed a post-graduation certificate in dental implantology and is a member of British and European academy of implant and restorative dentistry (BAIRD Academy) in Leeds.

## TREATMENT COSTS

Initial consultation	£75
Root treatment with sealed restoration	£850
Re-root treatment	from £950
