

Minor oral surgery, Implants & IV sedation

Clinicians: Dr Muataz Osman
& Dr Yaser Al Daker

We welcome referrals of your patients for minor oral surgery, implant treatments and IV sedation.

MINOR ORAL SURGERY

We welcome referrals for minor oral surgery. This can include, dental extractions including for orthodontic treatments, wisdom tooth extractions and apicectomy, Exposure of unerupted teeth, minor soft tissue surgery including frenectomy.

IMPLANTS

We welcome referrals of your patients for implant treatment. If you prefer us to carry out the full treatment, this will be delivered and the patient re-referred back to you on completion of the case. If the patient requires any other dental treatment, in addition to implant-related dentistry, the patient will be returned to you to have this carried out.

We also offer mentoring with Dr Muataz Osman. If you are interested in being mentored to place implants or to restore the implants we have placed, we may be able to do this at your practice or at Chester Cosmetic & Dental Care.

IV SEDATION

We offer IV sedation for your anxious and phobic patients. We are happy to undertake most procedures under IV sedation.

Dr Muataz Osman

BDS MSc (Clin) Periodontology PhD (Clin) Implantology

IMPLANTS & PERIODONTOLOGY

Dr Muataz Osman limits his practice to periodontics and implant dentistry, with his main focus on treating and managing patients with periodontal and peri-implant diseases, mucogingival defects, implant placement and restoration with all the necessary bone and tissue grafting procedures and sinus lift and grafts.

In 2018, he graduated with distinction in his clinical MSc in Periodontology and Implant Dentistry (University of Manchester) and gained a scholarship to undertake a clinical PhD in Dental Implantology (University of Manchester). His clinical case load during the PhD consisted of complex cases such as cancer patients, trauma cases, severe atrophic ridges, hypodontia cases amongst others. He was appointed as Honorary Clinical tutor at the University Dental Hospital of Manchester department of Periodontology which also involved teaching undergraduate and postgraduate students. In addition, Muataz is an active member of the British Society of Periodontology, the European Association for Implantology, the Libyan Society of Periodontology as well as the Academy of Osseointegration.

Muataz joined the well-known Tipton Training courses as a tutor and mentor for their PG Certificate in dental implantology as well as the periodontics modules for the PG Certificates in aesthetics and restorative dentistry since June 2021.

Dr Yaser Al Daker

BDS MSc PGCE (Restorative)

ORAL SURGERY & IMPLANTS

Dr Yaser Al Daker is highly experienced with advanced qualifications in Oral Surgery. Yaser graduated as a dentist in 1989 and then completed an MSc in Oral Surgery from the University of Manchester in 1999. He has worked extensively in a hospital environment in the UK and abroad. In his time at Manchester Royal Infirmary and Salford Royal Hospital he gained experience in a wide range of surgery, including dento-alveolar, orthognathic, implantology, and ablative and reconstructive for malignancy.

Abroad, he has worked as the head of the dental department in multiple hospitals, where he performed oral surgery procedures under general and local anaesthesia, managed oral and maxilla-facial trauma including road traffic accidents, and consulted with other related specialists.

Dr Yaser excels at minor oral surgery such as difficult impaction and teeth exposure prior to orthodontics, as well as implants using bone grafting and the use of sedation for nervous patients.

We also welcome enquiries if any dentists wishes to discuss a case with us before referring.
